

Delegate's Guide
**HELP US TO
BE GREENER**

As a venue, we recognize the importance of sustainability and taking steps towards being more environmentally conscious. We believe that every small action counts, and that we can work together to create a greener future.

With this in mind, we encourage all our delegates to join us in our efforts to reduce our environmental impact. Here are some simple ways that you can help:

- Use public transportation, carpooling or walking to the venue. This reduces the carbon footprint of your travel and helps reduce traffic congestion.
- Bring your own refillable water bottle and coffee cup. This reduces the use of disposable cups and bottles.
- Choose vegetarian or vegan food options. Livestock production is a major contributor to greenhouse gas emissions.
- Use recycling and composting facilities provided at the venue. This reduces waste and helps divert it from landfills.
- Turn off lights and electronics when not in use. This saves energy and reduces greenhouse gas emissions.

We believe that by taking these simple steps, we can make a big impact in creating a more sustainable future. Let's work together to reduce our carbon footprint and make a positive impact on the environment. Thank you for your cooperation!
